Our Christian Ethos

Archbishop Cranmer C of E Primary Academy strives to be an inclusive community where children grow, learn and achieve together. Our Take Care Learning Behaviours, held together by our Christian Values, form the essence of our ethos and gives our school its sense of value and drive. We always challenge our school community to consider what our values mean to them.

Our Take Care Hand reminds us that we are always:

- Taking Care (forming meaningful relationships with ourselves and others)
- Aspiring to have a go (being creative and curious)
- Acting with Integrity (always doing the right thing)
- Working hard (aspiring to be the best we can be by embracing high challenge, creative work)
- Being proud of ourselves (growing in confidence, knowing what is possible)

At Archbishop Cranmer C of E Primary Academy we believe that our understanding of society and the world as a whole is at the heart of our school's life. We aim to make it real and meaningful to our children and we recognise the following are fundamental to its achievement:

- That we consider our school society and local community before we reach out to embrace the whole world;
- We commit to creating a school community in which children fully develop in mind, body and spirit within a Take care school through our Take Care Learning Behaviours
- Offering a wealth of opportunities and experiences through our culture of opportunity and ambition which provides our pupils with real, memorable activities to support their learning.

Rationale

Spirituality is a powerful force that determines what we are and our self-understanding. It forms the basis for successful relationships, and shapes our behaviour and outlook on life, others and the world. Spiritual development relates to that aspect of inner life through which we acquire insight into our personal experiences which are of enduring worth.

At Archbishop Cranmer Church of England Primary Academy our core purpose is profound personal development. This is underpinned by our overriding Christian vision which we strive to deliver on behalf of the children and families we serve: the words of Jesus in John 10:10 "*life in all its fullness*". We strive to help our pupils learn and grow through everything we do whether it is worship, our curriculum, taking part in the activities and opportunities we provide or through the way we relate to each other, our world the way we care for each other. Our Christian values, our sense of the spiritual, our Religious Education provision and our social, moral and cultural education all merge into one, creating our response to life, who we are and who we might be whilst enabling and encouraging all children to grow and flourish spiritually to become the foundations of our Beyond Expectation curriculum.

It is our aim that the children's individual spiritual development is fostered as an integral element of the range of learning opportunities and experiences they encounter as part of the curriculum, and that it permeates all strands of school life.

Organisation and Implementation

Spiritual development is an important element of a child's education and fundamental to all other areas of learning.

Without curiosity, without the inclination to question, and without the exercise of imagination, insight and intuition, children would lack the motivation to learn. In view of this, teaching styles at Archbishop Cranmer:

- Value the children's questions and give them space for their own thoughts, ideas and concerns;
- Enable the children to make connections between aspects of their learning;
- Encourage the children to relate their learning to a wider frame of reference, e.g. asking 'why?', 'how?', and 'where?' as well as 'what?'.

Spirituality is not taught but is interwoven throughout all aspects of school life and is nurtured and promoted as a natural element of the curriculum. Spiritual links are planned for when teachers complete long and medium term plans. The following opportunities will be made available, as an integral part of the school's practice, in order to facilitate the development of spirituality:

- To explore values and beliefs, including religious beliefs, and the way in which they impact on peoples' lives;
- Where children already have religious beliefs, to support and develop these beliefs in ways which are personal and relevant to them as an integral part of the school's practice;
- To engage in enquiry and exploration as part of experiential, first hand learning;
- To look attentively and observe carefully;
- To be creative and imaginative;
- To listen with discernment and respect;
- To reflect and respond to issues in moments of quiet or inspired through music, art, text, film or artefacts;
- To explore and develop what animates themselves and others;
- To understand human feelings and emotions, the way they impact on people and how an understanding of them can be helpful;
- To value what is good and worthwhile and to make value judgements through discussion and exchange of views;
- To work collaboratively with peers, valuing the contribution made by others;
- To respect all, as modelled by staff in their relationships with others;
- To experience silent, calm and tranquil moments which afford time for reflection;
- To work and live in harmony with others in the school and wider community;
- To have confidence to express ideas, views and opinions, even if others do not agree.

Opportunities for spiritual development are presented or naturally arise, and are promoted in all aspects of the curriculum and school life as the children become actively engaged in an enquiry based curriculum, which provides a wide range of experiential learning opportunities that enables them to question, consider, reflect and respond, and consider their own values, beliefs and feelings and those of others, with whom they are working alongside or with.
