

Pupil Parliament Report

Summer Term 2021

What We've Been up2

- We planned and led a TV trailer advertising the new reading shed, explaining how it should be used and when we can use it.
- We celebrated the opening of our eco-friendly reading shed with school. We invited the local press to join us at the reveal!
- We planned and led an assembly for Food Waste Week 2021 and worked with our school chef to ensure our school dinners produce minimal waste. We also showed our school chef all of the amazing produce we are growing on our school grounds and worked together to find ways of using this produce in our school dinners.
- We planned and led an assembly for Healthy Eating Week 2021. We shared a poster competition for pupils to enter to raise awareness about the importance of bringing healthy snacks and lunch boxes to school.
- We re-introduced TerraCycle to the school and promoted the recycling of crisp packets.

We are really proud of everything we have achieved this year.
