

Eco-Schools Green Flag Award Report: Archbishop Cranmer CE Primary Academy

We are thrilled to announce that Archbishop Cranmer CE Primary Academy has successfully achieved the **Eco-Schools Green Flag with Distinction Award** for 2024. This accomplishment reflects the hard work and dedication of our students, staff, and wider school community toward creating a sustainable and environmentally conscious learning environment.

Key Highlights from the Feedback:

- **Engaged Eco-Committee:** Our Eco-Committee, consisting of 35 enthusiastic members, has shown deep passion for environmental issues. Their commitment to sustainability was evident throughout the application process. One standout quotation from an Eco-Committee member highlighted their belief in the power of positive change within our school and community.
- **Environmental Review & Action Plan:** By conducting a thorough Environmental Review, the Eco-Committee gained valuable insights into the school's current sustainability practices. This process helped them to create a detailed Action Plan, focusing on areas identified in the review. The feedback praised the broad range of activities aimed at fostering positive environmental behavior and engaging the wider community.
- **Curriculum Integration:** Environmental education has become a core part of our school's learning experience. Noteworthy examples include Year 1's smoothie-making project and Year 3's workshop with Severn Trent, which introduced students to the process of making potable water. These initiatives not only teach environmental responsibility but also develop critical thinking and creativity in our pupils.
- **Community Engagement:** Our Eco-Committee used a variety of methods to promote sustainability, including school assemblies, newsletters, and social media. Their efforts to involve the wider school community, such as through the pupil parliament and partnerships with organizations like Severn Trent and the Canal River Trust, were particularly commended.
- **Sustainability in Everyday Life:** A significant success of the Eco-Schools program at Archbishop Cranmer has been the integration of environmental consciousness into the daily lives of our students. Parents have noticed the impact, with students carrying the values they've learned at school into their homes and local communities.
- **Overcoming Challenges:** Despite facing time constraints, the Eco-Schools Team successfully shared the workload, ensuring that environmental initiatives continued to thrive. A highlight of the year was our environmentally-themed trip to Southwell Minster, where students explored nature in a hands-on, engaging way.
- **Eco-Code:** Our final Eco-Code was described as an inspirational call to action, and its visibility around the school ensures that environmental awareness remains a priority for everyone. The line "We are a Take Care School" was especially appreciated for its simplicity and effectiveness.

Conclusion:

The Eco-Schools program has significantly enriched the educational experience at Archbishop Cranmer, fostering a culture of environmental responsibility and action. We are immensely proud of this achievement and grateful to the entire school community for their continued support and commitment. We look forward to building on this success and further embedding sustainability into every aspect of school life.

With this award, we celebrate our collective efforts and reaffirm our dedication to caring for our planet
